

## Self And Soul

The Moog

Seek out the sound  
Sedates, resounds

Step on a stair  
Go high to where

No lights abode 2x  
The self resigns

It keeps watching me /When I'm out  
In keeps hurting me /When I'm up  
It keeps haunting me /When I'm down  
Just keep hiding me

I found to stay  
Snowfields a lost way  
Lulls me to sleep  
From deep down to save

Desire pierced through 2x  
Cold stone forlorn
