

This Is Horror

The Moog

You, you do not know
You do not feel
That it's over

Come kiss me softly
Kill me gently
Then just leave me

'Cause this is shocking horror
I can't take anymore

Don't act like it's alright
When your eyes bite
And silence shouts

Wish I didn't know that
We'll never get back
What we only had

'Cause this is shocking horror
I can't take anymore

Tell me lies then we will believe that our night is still pure
as dawn
