You, you do not know You do not feel That it's over

Come kiss me softly Kill me gently Then just leave me

'Cause this is shocking horror I can't take anymore

Don't act like it's alright When your eyes bite And silence shouts

Wish I didn't know that We'll never get back What we only had

'Cause this is shocking horror I can't take anymore

Tell me lies then we will believe that our night is still pure as dawn
