

Cry Baby

The Motels

It's not what it seems to be
Please don't be mean to me
Four or five times I've said
I'm in over my head

So you want everything
Pleasure a kiss can bring
What kind of fool am I?
I can't tell you goodbye

It's easy
It's easy
It's easy
Can't you see it's easy?

So, cry baby
Cry baby
Cry baby
Cry baby
Cry baby

And now that it's understood
There's little likelihood
So turn up the radio
And turn off the phone

It's easy
It's easy
It's easy
Can't you see it's easy?

So, cry baby
Cry baby
Cry baby
Cry baby
Cry baby

Now, I'm not the only one
To get caught in the light
And now that I'm left alone
Can my tears see me through the night?
No

And now that I've paid the price
I listen to free advice
So write me an alibi
I'm in over my head

It's easy
It's easy
Can't you see it's easy?
So, cry baby

It's easy
It's easy
Can't you see it's easy?
So, cry baby

It's easy
It's easy
It's easy
It's easy
So, cry baby

It's easy
It's easy
Can't you see it's easy?
To cry baby

It's easy
It's easy
Can't you see it's easy?
So, cry baby
