

Danger

The Motels

Danger
Your love is like a stranger
So close, and yet so far away

Daily
I make you my only
By giving you everything
That I have

Late at night
When I want you
I just close my eyes and I pray
Late at night when I need you
I just stop
To me I say

Danger
Your love is like a stranger
So close, and yet so far away

Nightly
I dream how it might be
If I gave you everything
That I have

Late at night
When I want you
I just close my eyes and I pray
Late at night when I need you
I just stop
To me I say

Danger

Late at night
When I want you
I just close my eyes and I pray
Late at night
When I need you
I just stop
To me I say

Danger
Your love is like a stranger
So close, so close, so far
