

## Forever Mine

The Motels

They say, before we met  
How perfect we would be  
There's no question, there's no answer  
My forever mine, my forever mine

Sweetly spoken lines  
Erase all those bad times  
How long I've longed  
For the longing to stop  
My forever mine, my forever mine

Take me in your arms  
Whisper words like always  
Stay until you go  
Live forever, love forever  
My forever mine, my forever mine

The memories are there  
To prove how real or rare  
Maybe just a place in time  
My forever mine, my forever mine

Take me in your arms  
Whisper words like always  
(Always, always)  
Stay until you go  
Live forever, love forever  
My forever mine, my forever mine

Take me in your arms  
Whisper words like always  
(Always, always)  
Stay until you go  
Live forever, love forever  
My forever mine, my forever mine  
My forever mine, my forever mine  
My forever mine, my forever mine  
My forever mine, my forever mine  
My forever mine, my forever mine  
My forever mine, my forever mine
