

## Blueberry Frost

## The Mountain Goats

When you saw the evening star  
Shining in the freezing sky  
I saw something dark and silent  
Passing by

Full moon  
Deep grass  
Cold water

When you said your name out loud  
Something broke inside me  
Nothing new to take a hold of  
No new world to hide me

Full moon  
Deep grass  
Cold water

Full moon  
Deep grass  
Cold water
