## **Down Here**

## **The Mountain Goats**

On Venus it rains sulphuric acid And the raindrops evaporate before they hit the ground Japanese red-crowned cranes by the water here Trouble in town

I feel like I'm gonna drown down here It's all coming down down here

Hurricanes in from Australia Tore up the neighborhood A telegram from Lithuania And the news is not good

And I don't speak the language down here It's all coming down down here

Johnson Johnson is my name Brooklyn is my station Heaven is my resting place God is my salvation
