## **Heel Turn 2**

## The Mountain Goats

Get stomped like a snake Lie down in the dirt Cling to my convictions Even when I get hurt

Be an upstanding, well-loved man About town In your child's mind that's How it goes down But I try the losing side

I don't want to die in here I don't want to die in here

Drift down into the new dark light Without any reservations
You found my breaking point
Congratulations

Spend too much of my life
Now trying to play fair
Throw my better self overboard
Shoot at him when he comes up for air
Come unhinged
Get revenge

I don't want to die in here I don't want to die in here

Stay good under pressure For years and years and years President of the fan club Up there choking on his tears

Let all the trash rain down
From way up in the rafters
I'm walking out of here in one piece
Don't care what comes after
Drive the wedge
Torch the bridge

I don't want to die in here I don't want to die in here
