Never Quite Free

The Mountain Goats

It's all good to learn that right outside your window There's only friendly fields and open roads And you'll sleep better when you think You've stepped back from the brink And found some peace inside youself Laid down your heavy load It gets all right to dream at night Believe in solid skies and slate blue earth below But when you see him you'll know

It's okay to find the faith to saunter forward With no fear of shadows spreading where you stand And you'll breathe easier just knowing that the worst is all be hind you

And the waves that tossed the raft all night have set you on dr y land

It gets okay to praise the day
Believe in sheltering skies and stable earth beneath
But hear his breath come through his teeth

Walk by faith
Tell no one what you've seen

It's all good to learn that from right here the view goes on fo rever

And you'll never want for comfort and you'll never be alone See the sunset turning red let all be quiet in your head And look about, all the stars are coming out They shine like steel swords
Wish me well where I go
But when you see me you'll know
