Well her sister used to hate it, so I never thought she'd make it. But she threw you all supposing in a Spangle wrapper.

She will let you stroke her head, but if you move away your dead. She just break you up before you realize it's happened.

CHORUS:

But she can really do the Brontosaurus and she can scream the Heeby Jeeby for us. until you know what she's really got 'cos she can do it loud Well, she can DO it, do it, do it!

Now her daddy's getting old And he seemed to lose control When the Brontosaurus stormed into the house to trap her.

Well her sister used to hate it So I never thought she'd make it. Until she shook you up exactly like a firecracker

CHORUS:

really do the Brontosaurus and she can scream the Hee-by Jee-by for us. Well you know she can really rock SO do it, do it now.
