

## So What

### The Mowgli's

The night makes me say  
Things when I don't feel that way  
All of my days  
Kaleidoscope into a million things

You keep me awake  
Calling me up on your cigarette break  
Got nothing to say  
So I'm listening to every breath you take

I was on the back of your mind  
I kinda like what I see but I don't wanna be here

So what if you know  
How to dig through the trash and come out with gold  
So what if you're broke  
I'm sure someone probably cares  
But I swear I don't  
Monday still alone  
Sun is coming up where'd your weekend go  
So what if you know  
So what so what so what... so what

Anything you say  
A million times is gonna sound insane  
Maybe it's a waste  
Maybe everything is these days

I was on the back of your mind  
I kinda like what I see but I don't wanna be here

So what if you know  
How to dig through the trash and come out with gold  
So what if you're broke  
I'm sure someone probably cares  
But I swear I don't  
Monday still alone  
Sun is coming up where'd your weekend go  
So what if you know  
So what so what so what... so what

I'm feelin' alright  
Throw your hands together  
If you're feelin' tonight  
I'm feelin' alright  
For the first time in a long time  
So throw your hands together  
If you're feelin' tonight

So what if you know  
How to dig through the trash and come out with gold  
So what if you're broke  
I'm sure someone probably cares  
But I swear I don't  
Monday still alone  
Sun is coming up where'd your weekend go  
So what if you know

So what so what so what... so what

I was on the back of your mind  
I kinda like what I see but I don't wanna be here

So what if you know  
How to dig through the trash and come out with gold  
So what if you're broke  
I'm sure someone probably cares  
But I swear I don't  
Monday still alone  
Sun is coming up where'd your weekend go  
So what if you know  
So what so what so what... so what
