Big Mistake

The Mr. T Experience

What the hell is going on
Everything is going wrong
It's too much for me to take
Just found out my big mistake
I thought I was safe
That was a big mistake
You can shake your little head
Grind your teeth until you're dead
Wring your hands until they break
Can't erase that one mistake
If you don't know what's going on
Take a look at everyone
We will look right back at you
And you won't know what to do
