

Disconnection

The Mr. T Experience

My old girlfriend just went insane
Disconnection in her brain
She was okay, now she's no
We're disconnected and I'm cut off
She talks and I can't follow
Disconnection in your head, in your head
Disconnection and it makes me feel so bad
Disconnection in your head
Why didn't you tell me I might have understood
You always make it sound so good
Now there's nothing that's what I've got
We're disconnected and I'm cut off
And that's something I can't swallow
I wonder if she's alright
I think about it every night
Such a waste of time
