

One Big Lie

The Mr. T Experience

I heard you I heard you
I hope you hear me
I want to believe you but I can't agree
I won't believe what I can't see
You can't fool me
One big lie
I talked to you all night
You told me your views
You made me an offer I couldn't refuse
But that doesn't mean a fucking thing
Just a smokescreen
So don't try to tell us you've thought it all through
Because we know the lie and we're smarter than you
I won't believe a fucking thing
You can't fool me
