

I've got this thing somewhere in between
Empty and dark always in my heart
I've got this glitch on account of which
I don't add up but I don't give up hope
Cause if you're a bit demoralised and kind of devistated
Less than optimistic or frustrated
Remember hey hey hey oh baby hey hey hey
Oh baby hey hey hey we're semi-OK
And that's a whole lot better than we used to be yesterday
Semi-OK is a kinda sorta brand new day
With this development distressingly content
If you want to see come along with me
Or just stay where you are, yeah actually just stay there
But my point is this if you've got a glitch
You may not add up but you're close enough
You'll find life can be kind of cool and not completely terrible
Absolutely sort of almost bearable
Wo wo wo oh baby wo wo wo oh baby
Wo wo wo we're semi-O
And that's half an O more than we had just a while ago
Semi-OK is the semi-best way to go
Semi-OK semi-OK is the semi-best way
It's the semi-cool semi-swell semi-all-the-way
Kind of semi-superlative kinda sorta brand new day
New day kinda sorta brand new day
