

# There's Something Wrong With Me

The Mr. T Experience

At the age of six or seven I was in my prime  
And ever since that time it's been a steady decline  
I had the brains I had the power had the building blocks  
And no I don't want to have one of our "little talks"  
I'm looking back now losing track now  
Thinking out loud why won't you back down  
So I'm going through a period of question marks  
And I know that you're so glad you're doing your part  
You're saying if I play my cards right and work hard each day  
They just might make me an honorary human someday  
One reflection three dimensions  
Two no votes and one abstention  
There's something wrong with me  
And I hear it in the way you say no really it's okay  
You say there's something wrong with me I know so go away  
I'd like to tell you how I'm doing every now and then  
But then it's deja vu all over again  
And when you lose your equilibrium it's all messed up  
You've got no more equilibrium  
There's something wrong with me  
And if you won't play along with me there's no telling what I'll  
do  
There's something wrong with me it's pointing right at you  
It's gonna follow you
