Agony

The Muffs

You were a fool to go under the table And now you know you were unable To pretend you're all alone And now look what it's done to you

And when you find that you're getting attention And you think that you're having all the fun But soon you'll realize You're living in a fantasy

So now you're all alone
And you don't really
Like the way he went away
And now you're living in agony

Do anything you want always all the time But now you know it wasn't worth a dime So now you're all alone And now it's not a perfect world

And when you think You're more clever than anyone Now think again, we knew it all along But in reality I know you'll never be okay

So now you're all alone
And you don't really
Like the way he went away
And now you're living in agony

And I'll be by your side
And I'll be by your side
And if you think that I'm unkind
Then you're blind

So now you're all alone
And you don't really
Like the way he went away
And now you're living in agony
