

# Everybody Loves You

The Muffs

On the way out I could see  
Ugly little me  
and I'll say that I am crushed as crush could be  
you messed me up you see

but if you loved it and felt it  
you carry us you do  
I could never say it but it's true  
everybody loves you

and I could do a lot I always did and I know you did too  
say goodbye and I'll go and now I know  
I hope you're feeling good

but I'm no liar or crier but I know when it's through  
I could never say it but its true  
everybody loves you

why'd you go now where'd you go I think I'll never know  
If you go now I can't take it but I think that I can say

you want it, and felt it you carry us you do  
I could never say it but it's true  
everybody loves you  
everybody loves you  
everybody loves you
