About myself-what do you wanna know
Am I wrong beneath this stupid little song

I freak out anytime that you freak out every time I have attitu de

Anytime and I think I wanna die

I don't care, what you think about me Go to hell I'm wanting you to know I tell the truth

But something inside me freaks out anytime that I think of you anytime and I think I'm gonna die

I don't cry every time that I see you. I'll whine and I'll write another tune

[solo]
