

You And Your Parrot

The Muffs

You and your parrot
Walk around like you're demigods
You and your parrot
When you're together I'm all alone
I am all alone (yeah)

Forget about it
You get together and laugh at me
Forget about it
Gossiping on the telephone
I am all alone

Will anybody take a chance for me today?
We'll throw them in a well and
Laugh and watch them float away

Will anybody take a chance for me today?
We'll throw them in the ocean
Laugh and watch them float away

[Repeat First Verse]

Now I'm gonna be all alone
Now I'm gonna be all alone
I am all alone
