

Follow Me

The Muppets

Every day the world begins again
Sunny skies or rain
Come and follow me
Every sunrise shows me more and more
So much to explore
Come and follow me
Every morning every day
Every evening calling me away
While the sun goes 'round
I'll still be found
Following the sound
Something's calling me
When the world goes drifting back to bed
Memories in my head
Wonders follow me
Every morning every day
Every evening calling me away
Every morning every day
Every evening calling me away
