

Revolution

The Murder of My Sweet

She, she's working for succes to come her way
Not sitting down expecting wind to change
Never running out of luck
Not wasting time

Why should I begin to stop or slow it down?
I'll rest whe I get old and out of time
But now I wanna run
Take all that's mine

I'm gonna be the last one stanindg here
And nothing's gonna slip through my fingers
It's whe I raise my first that I think clear

Here comes my revolution
It's time for evolution now
A drop of rain on my face makes me wake up, and stand up
Here comes my revolution
Call out the resurrection now
A drop of rain is all it takes to stand up and wake up
Here comes my revolution

Now, I know it is the time to be around
Let everybody see what I'm about
Let everybody know,
What really counts

It's when I raise my first that I think clear

Here comes my revolution
It's time for evolution now
A drop of rain on my face makes me
wake up, and stand up
Here comes my revolution
Call out the resurrection now
A drop of rain is all it takes to stand up and wake up
Here comes my revolution

Today has a new beginning
I'm standing on solid ground
Today meets another ending
I dance to a different sound

Here comes my revolution
It's time for evolution now
A drop of rain on my face makes me wake up, and stand up
Here comes my revolution
Call out the resurrection now
A drop of rain is all it takes to stand up and wake up

Here comes my revolution
Revolution
Here comes my revolution
Revolution
Here comes my revolution
