

Neverending

The Murmurs

Hear the joyous song I'm singing
In the spirit of the earth
Distant voices they will call me
Sing of love and rebirth
Oh this road is neverending
And my journey has a goal
So cry your eyes out little lady
And all the answers will be told
Hear the joyous song I'm singing
In the spirit of the earth
Distant voices they will call me
Sing of love and rebirth
Oh this road is neverending
And my journey has a goal
So cry your eyes out little lady
And all the answers will be told
