

# Venom Of Violence

The Murmurs

Hey my name is not you're business to know  
When I call you  
I'm not silenced  
People have a way of messing with minds  
It's a venom of violence

Hit me with the power  
Like a rocket ship  
Push my buttons  
Watch me fly  
I'll take you on an ego trip  
And fall

Can you know how bad I feel inside  
Stab me while I'm bleeding one more time  
I'll play your silly game until I die

Why are people cruel?  
It's human nature to ridicule  
No I don't think so  
It's a selected few  
And who selected you?

I think it's insecurity that intices such behavior  
Better think next time you're feeling intact  
Some day they could be you're savior

Hit me with the power  
Like a rocket ship  
Push my buttons  
Watch me fly  
I'll take you on an ego trip
