

Come What May

The Music

Who you are
All your dreams come true
Who you are
Will you ever understand
All my life
I tried to be there
Now I'm sure
That this is the end

Stay, come what may
Yeah, come what may

Who you are
All your dreams come true
Who you are
Will you ever walk the sea
All my life
I tried to be them
Now I know
That this is the end

Stay, come what may
Yeah, come what may

I've been holding you in my mind
Scared, of facing you
And now I'm working my life away
Lonely for you

Stay, come what may
Yeah, come what may
