## **Come What May**

Who you are All your dreams come true Who you are Will you ever understand All my life I tried to be there Now I'm sure That this is the end

Stay, come what may Yeah, come what may

Who you are All your dreams come true Who you are Will you ever walk the sea All my life I tried to be them Now I know That this is the end

Stay, come what may Yeah, come what may

I've been holding you in my mind Scared, of facing you And now I'm working my life away Lonely for you

Stay, come what may Yeah, come what may The Music
