Yeah, I'm sensible, I want peace And I believe it's still inside of me Far from here they speak a thousand tales Of what we lost into an open fire

I think it's time for you to look around And see your past is like broken glass Where are the feelings?
Where are the feelings?

A false empire of burning fire A burning fire is what you are A burning fire gonna leave a scar A burning fire is what you are A burning fire gonna leave a scar

I've had enough, I'm gonna hide no more Now I've spoken, gonna speak some more Politics are getting in the way People telling me what I should say

I think it's time for you to meet the boys We'll cut through you like silence cuts through noise Where are the leaders?
Where are the leaders?

A false empire of burning fire A burning fire is what you are A burning fire gonna leave a scar A burning fire is what you are A burning fire gonna leave a scar

Yeah, I'm not inspired

I've had enough, I'm gonna hide no more Now I've spoken, gonna speak some more Politics are getting in the way People telling me what I should say, woah

I think it's time for you to meet the boys We'll cut through you like silence cuts through noise Where are the leaders? Where are the leaders?

A false empire of burning fire A burning fire is what you are A burning fire gonna leave a scar A burning fire is what you are A burning fire gonna leave a scar

Yeah, I'm not inspired Outside
