I Need Love

So to the world I'll raise a glass and Turn my back on life I wish that you were here with me Instead of by his side I can't believe it's been this way forever But when you need it It makes it harder I need love I need love I need love Help me now I need love I need love I need love Help me now I need love I need love I need love Help me now I need love I need love So come on help me girl I just wanted to leave I can't help myself I want love to help me find a home My lonely life is simply nothing without you I can't believe it's been this way forever But when you need it It makes it harder Girl, move I need love I need love I need love Help me now I need love I need love I need love Help me now I need love I need love I need love Help me now I need love I need love So come on help me girl Honey its time to go Honey its time to go

The Music

```
Honey its time to go
Ooooh
I never listen
To what you said
I was so foolish
In this time
Please remember
Honey its time to go
Honey its time to go
Honey its time to go
Honey its time go get get get
Honey its time to go
Honey its time to go
Now
I need love
I need love
Help me now
I need love
I need love
I need love
Help me now
I need love
I need love
I need love
Help me now
I need love
I need love
So come and help me now
So come and help me now
Move
Come on help me now
So come and help me now
```
