

# Body Of Work

The Mynabirds

Before you get out I want you to know  
You get so many lives in just this one  
Sometimes you're a roller  
Sometimes you're the stone  
Sometimes you're an avalanche in whole

But you can be wild horses on that hill  
You can be wild horses  
You can stop at will  
And you will

Before you get out on your one way  
I've got a ticket waiting for you under any name  
You can be holy or a roller, oh anything  
But whatever you choose - stay

Yesterday happened just exactly as it did  
You can't go back and undo it  
You're not a knot you're not a dead end  
Don't ever forget  
You're a living thing

"Freedom is what you do with what  
With what's been done to you"

Before you lay down in this place  
Remember you can see a blackbird  
A thousand ways  
You can be a soldier  
You can be the snow  
Under the boots of an army with miles to go

And you can be white horses on that hill  
You can be white horses  
You can carry heaven until

Yesterday happened just exactly as it did  
You can't go back and undo it  
You're not a knot you're not a dead end  
Don't ever forget

You are a body of work  
You are a body of work  
You are a body of work  
You are a body of work- Edit it

You are electric  
You are electric  
You are electric  
You are electric - So sing it

"Freedom is what you do with what  
With what's been done to you"
