

Karma Debt

The Mynabirds

Here we are in the orchestra
A bullet in our brain
We hold our homes like credit cards
And hope to pay the rent
But when the war is done
And we've finished all our songs
We'll offset the colossal karma debt

The ebony and the ivory talked politics again
Then they sat and chewed the stingray
Til there was nothing left
But will all their peace act cold
Amount to something more or something less
And wasted breath

I give it all I give it all for a legacy of love
I give it all I give it all for a legacy of love
I give it all I give it all for a legacy of love

Here we are in the orchestra
A bullet in our brain
We hold our homes like credit cards
And hope to pay the rent
And when the war is done
And we've finished all our songs
We'll offset the colossal karma debt
