

## A Stillness

## The Naked and Famous

Gallantly rise  
Strike spears of light  
Inside my eyes  
Over the fields  
Where we believed  
Our love had died

Still  
Still  
Be still

Roses of white  
Blushing with life  
Don't pass me by  
Whisper the needs  
Quiet release  
Fever in me

Head cases full  
Rise out of you  
Breaking in two  
Let there be light  
Golden inside  
Dark was the night

Still  
Still  
Be still
