

## A Wolf in Geek's Clothing

## The Naked and Famous

Don't sweat  
Take a bow  
Don't fret  
It's over now

Overflow  
Shake a fist  
Howling at  
The emptiness

Felt something  
Starts to burn  
Fades away  
The wind, it turns  
Ashes flow  
Moon is glow  
Run away  
Forget the day

Down and out  
Nothing's doubts  
Let's get  
The molting out  
Make a space  
Set it free  
Tug or pull  
They will see

Felt something  
Starts to burn  
Fades away  
The wind, it turns  
Ashes flow  
Moon is glow  
Run away  
Forget the day

Forget the day, forget the day, forget the day
