

## I Kill Giants

## The Naked and Famous

The end of June came  
And took you away  
We were all crying  
Felt like I was dying

Black dress & black shoes  
Tied laces for you  
The saddest of days  
Why couldn't we save you?

Inside my head  
At the edge of the bed  
Where somberness lay  
In your children that day

As goodbyes are spent  
Holding on to what's left  
The saddest of days  
Why couldn't we save you?

Nothing but ashes  
In the old fire place  
With all of the memories  
He has erased

Heavier heels  
His mourning concealed  
On the saddest of days  
Why couldn't we save you?
