

## Jilted Lovers

## The Naked and Famous

I am weary from all of the games  
I'm not hearing any other way

Shut my eyes  
Head rest on my hands  
Quietly  
Hiding once again

Jilted lovers  
Sleeping in the unrest  
How do we survive to make amends?

Fight the lies  
Voices in my head multiply  
I am such a mess

ha-ha ha-ha

A Wolf In Geeks Clothing  
No sweat, take a bow  
Don't fret; it's over now  
Overflow  
Shake a fist  
Howling at the empty mist

"Found something!"  
Starts to burn  
Fades away  
The wind it turns  
Ashes flow  
Murmurs glow  
Run away  
Forget the day

Louder now, nothing's felt  
Lets get the all to yelp  
Make a space  
Set it free  
Tug and pull  
They will see

"Found something!"  
Starts to burn  
Fades away  
The wind it turns  
Ashes flow  
Murmurs glow  
Run away  
Forget the day
