

# I Said

## The Nearly Dead

You can take anything you want  
But just don't mess me up  
No, don't break my bones

I see the way you lookin', starin' at me  
Like I'm something, some kind of  
Some kind of, some kind of  
Some kind of girl who follows boys around the world

Some kind of lost and confused  
Little can't help help myself, no  
I am aware of all the games that you play  
But let me tell you boy, it gets you nowhere

And I said we're over, we're over  
Cause I can do this by myself  
I'm probably gonna go all alone  
And I said, I said

You better learn to take it easy my friend  
Cause I'm out of my mind  
And you're fallin' behind  
Hate the way you're always logical  
It makes me wanna just say it  
Well just say it

Some kind of boy that want to dance with all the girls  
Some kind of hard to amuse, little can't help myself, no

I'm in the mood, ready to go break some hearts  
But let me tell you boy  
It gets me nowhere

And I said we're over, we're over  
Cause I can do this by myself  
I'm probably gonna go all alone  
And I said, I said

You're tryin' to hide it  
You're tryin' to fake it like you're something  
Some kind of, some kind of  
Some kind of boy that doesn't care about people  
You think it's always you against the world  
How's that workin' out for you?

And I said we're over, we're over  
Cause I can do this by myself  
I'm probably gonna go all alone  
And I said, I said  
Slow down
