

In The Morning

The Nearly Dead

Don't let your hard world fall apart
Just because I'm not here
It's not like I'm not comin' back
Not just gonna disappear

I never cheated, never lied
So much to my surprise
The love we had was based on lust
And there was never any trust

Aaaaaa. Aaaaa. Go to sleep and forget about me
In the morning, in the morning, in the morning

I don't remember how we met
The time will tell in a month over here
Because you never let me fly on my own
I stay with you out of fear

Aaaaaa. Aaaaa. Go to sleep and forget about me
In the morning, in the morning, in the morning

You have a love against the world
And I could kill a lot for
We never really had it all
And I should know that this was not love

Aaaaaa. Aaaaa. Go to sleep and forget about me
In the morning, in the morning, in the morning
