

Reasons

The Nearly Deads

An empty bedroom,
all my bags are packed.
I have to wonder...
Will I ever want you back?

Hard to believe
this ever made me happy
Can't change my mind,
This isn't where we wanted to be.

Cause I don't know you.
You never really cared.
Making up your reasons,
Reasons left you standing there.
You know you're not the same
and that'll never change...
Where do we go from here?
Cause no one likes to be alone...

I'm losing count of all the times
you've said these words before.
I'm giving up on holding on, and I'm
not listening anymore!

I won't ask twice.
So get up off the floor.
I'm not blind,
this is the final score.

I don't even know you,
you never really cared.
Making up your reasons,
Reasons left you standing there.
You know you're not the same
and that'll never change...
Where do we go from here?
Cause no one likes to be alone...

I can't get back,
the price I paid.
You can't escape
the mess you made.

I've had enough.
Now I'm awake.
You'll always be
my worst mistake...

Cause I don't know you.
You never really cared.
Making up your reasons,
Reasons left you standing there.
You know you're not the same
and that'll never change...
Where do we go from here?
No one likes to be alone...
No one likes to be alone
