

Baby Came Home

The Neighbourhood

Baby came home today
Told me to stay away
She told me her man was afraid
Told me I better behave

Baby just came back around
Told me she's leaving this town
Said she needs time to explore
She said I can't love her no more

Thinkin' about her
She's gone all the time
I think if you found her
Even you would know

So baby packed up all she had
Promised to never come back
She left me alone and without
Skin I can study about

Tiles get colder to touch
Wood splinters, metal will rust
But baby, she had all my trust
And I guess that was never enough

Thinkin' about her
She's gone all the time
I think if you found her
That even you would know she's mine

Oh-oh-oh-oh

You know, you know she's mine

(Baby came home today
Told me to stay away
She told me her man was afraid
Told me I better behave)

Thinkin' about her
She's gone all the time
I think if you found her
That even you would know she's mine, she's mine
That girl is mine, she's mine, oh
