

No Grey

The Neighbourhood

Money, money, money

First things first
I don't wanna be forgotten
Even worse
I don't wanna be alone

But if it all stops today
Ill probably say
I didn't waste a minute
When I'm finished

Brand new faith
And I'm ready for the camera's mention
And all I pay
And my money and my damn attention

Didn't get me the deal
Got me to feel
How you would hear my sentence
When I'm finished

You could do it for the money, money, money
But the money makes them all the same
Everything's sunny
But the sunshine fades away

Everything's black
And white
No grey.

Pitch black frames
You can see me when I wear my lenses
And all they say
Is I'm fake and I don't get offended

And when push comes to shove
Ill show enough
I didn't need to listen
When I'm finished

You're insane
What you said when I explain the game plan
Nothing's changed
Except a little more change in my hand

Now I don't mean to brag
Life was in fact
Non-witness shows of women
It's not finished

You could do it for the money, money, money
But the money makes them all the same
Everything's sunny
But the sunshine fades away

Everything's black

And white
No grey.

You ended up with gold
But it started as a dream
If I get cold,
Put some honey in my tea

I used to be broke, now there's money in my jeans

I was broke now there's money in my jeans (3x)

You could do it for the money, money, money
But the money makes them all the same
Everything's sunny
But the sunshine fades away

Everything's black
And white
No grey.

Everything's black
And white
No grey.
