

War Against!

The Nerve Agents

I speak now of the merciless unseen
An invisible force feeds, malevolent
It's locked up inside me
I will never be free from the disease...
It won't get the best of me!
Aaarrrrghh!
My addiction, my intervention!
Focus, refocus! easily said on paper
This is my life... and I want it... yes!
Sometimes I stumble
But I choose to fight, because my other option is death
Your spirit stands... aided by sticks and poles
Fragile...
Responsible for your own sobriety
You topple... everyone goes down with you
War Against!
Let me go
