

True Love

The Neville Brothers

True love only comes
Once upon a time in your life
So I've heard my mother say

I have found true love
I don't never, never, never, never want you to go away
Baby, won't you stay?
Cause you bring me true love, true love

I've had sadness in my heart
Now I feel, oh, that it's gone away, gone away
Baby, you make my day

Your pretty eyes and your lovely smile
All the wonderful things, oh, that you always say
Oh baby, won't you stay?
Cause you bring me true love, true love

Oh baby, I, I love, I love you
Oh baby, I, I really, really, really, I really do
I love the way you bring me true love
Oh baby, I love the way you bring me true love

True love, true love, true love, true love
True love, true love, true love, true love
True love, true love, true love
Cause you bring me true love
