

Full Thunder Moon

The New Amsterdams

come see the flood,
step to the tune
your mother's blood,
full thunder moon

full thunder moon
full thunder moon
bathe us in blue
full thunder moon

come sing to me,
my soul to save
our fight to sea,
bob like a wave

oh silent night,
near waters edge
show me the light
of my promises.

full thunder moon
full thunder moon
bathe us in blue
full thunder moon

full thunder moon
full thunder moon
bathe us in blue
full thunder moon

full thunder moon
full thunder moon
bathe us in blue
full thunder moon
