

Love is a long shot  
Love is a bird in hand  
When this stops  
We'll be laughing  
Sing our songs  
Though they're barely heard

You be the prom queen  
I'll be the malcontent  
In this scene  
Just pretend  
Nobody cares about  
Social standing

Hughes  
Hughes you knew me  
You promise me maybe that  
Nobody talks to me  
I'm all alone

People are misplaced  
People are full of shit  
In this place  
I'm over it  
I've got a right mind  
To call it in

Cause even the sun stays  
Even the words turn good  
In the heat wave  
It's understood  
Nobody gives a damn for their neighbor

Hughes  
Hughes you know me  
You  
Will promise maybe later  
Nobody talks to me  
I'm all alone

You've had a bad year, you've got a place to stay  
And it's clear, you're on your way  
I won't tell your friends a thing
