

## Let It Be Clear

The New Cities

Right now you're up,  
You better take control of  
Your mind and thoughts for  
The sake of all you're made of

Getting so fueled you would be  
You could be and you should be  
Feeling so fueled  
If only it could be clear

Right now you're up  
You're running on the edge of  
Your very rush or  
The place that carries you up

Getting so fueled you would be  
You could be and you should be  
Feeling so fueled  
If only it could be clear

I know something inside you sighs  
To make sure you're left high and dry so  
Now you can use your will to live  
So you can rise above this state

Feeling so fueled, let it be clear

I know something inside you sighs  
To make sure you're left high and dry so  
Now you can use your will to live  
So you can rise above this state
