

# Love Me Deadly

The New Cities

I'll tell you a story,  
make it all blurry,  
twist it and turn it around  
I'll sing to you quietly  
until you're soundly sleeping  
and dreaming it out

Cause I know that our fall awaits  
when I'm gonna be taken away  
We gotta make it up for once and  
for all, through night and day

Love me deadly, break me softly  
No matter how so terribly  
we're gonna pay for this in the end  
Kiss me fiercely, wreck me dearly  
Cause she is the only way,  
just dare to love me...  
deadly

Please follow me blindly,  
show me no mercy  
and just let it tear us apart  
We're silently broken  
with words unspoken  
We're digging a grave for our hearts  
And we know that our fall awaits  
when I'm gonna be taken away  
We gotta make it up for once and  
for all, through night and day

Love me deadly, break me softly  
No matter how so terribly  
we're gonna pay for this in the end  
Kiss me fiercely, wreck me dearly  
Cause she is the only way,  
just dare to love me...  
deadly

Let it be, let it be,  
this perfect insanity  
Surrender to our innocence,  
sweeten up the bitter end,  
take my hand  
Curtain falls on you and me,  
end this epic tragedy  
here with me (there with me)

Love me deadly, break me softly  
No matter how so terribly  
we're gonna pay for this in the end  
Kiss me fiercely, wreck me dearly  
Cause she is the only way,  
just dare to love me...  
deadly
