

We've Got A Plan, A New One

The New Cities

We're gonna make it last
We're gonna make it healthy
We're gonna do it fast
We're gonna see what you see

'Cause everything around will make some sense
Yeah everything around will make some sense

I'll be here, I'll be fine, I'll be waiting
While I'm gone and nowhere to be seen,
I'll be here, I'll be fine, I'll be waiting
That's not how it goes

We've got a plan
We're moving on, and letting go
We've got a plan
We were running around in circles

Are you afraid to see
You'll never get what you need
If you won't let me free
That's all yours to see

'Cause everything around will make some sense
Yeah everything around will make some sense

I'll be here, I'll be fine, I'll be waiting
While I'm gone and nowhere to be seen,
I'll be here, I'll be fine, I'll be waiting
That's not how it goes

We've got a plan
We're moving on, and letting go
We've got a plan
We were running around in circles
