We've Been Here Before

The New Pornographers

Here is the quick rundown
We've been here before
It's best not to wander far
'Cause we've been here before

We couldn't find a way out When we were here, the first time Now it's lines we're leaving behind Lines we're leaving behind

Didn't choose what we mean Just go along with what's played There were rules once back when There should be rules again

Here is the quick rundown
We've been here before
It's best not to wander far
'Cause we've been here before
And we couldn't find a way out
When we were here, the first time
Now it's lines we're leaving behind
Lines we're leaving behind

And oh, to leave them behind And gold to trade for my life Where we end up again The gods of bad parties reign Shoots by invasion lights Round the same block again

So here is the quick rundown
We've been here before
It's best not to wander far
'Cause we've been here before
And we couldn't find a way out
When we were here the first time

Now it's lines we're leaving behind Lines we're leaving behind

We've been here before...
