

# Down That Road Tonight

The Nitty Gritty Dirt Band

Seems like lately we're losin' touch  
Work too hard and worry too much  
I think it's time for me and you  
To get back to what we used to do

We'd steal away on a Saturday night  
Meet in the field when the time was right  
Just us two and a starry sky  
It felt like paradise

I said, ooh, baby, goin' down that road tonight  
It's gettin' too crazy, need to hold each other tight  
Thinkin', ooh, maybe the moon stills shines as bright  
Like it did back then, it'll shine again  
Down that road tonight

Remember all the songs that we used to know  
Dancin' in the dark to the radio  
Lost in the rhythm, kickin' up some heat  
The memories are still so sweet

Time's gone by but it's plain to see  
I still love you and you still love me  
Let's shake these troubles, put 'em all aside  
C'mon, we're gonna take that ride

I said, ooh, baby, goin' down that road tonight  
Gettin' too crazy, need to hold each other tight  
Thinkin', ooh, maybe the moon stills shines as bright  
Like it did back then, it'll shine again  
Down that road tonight, down that road

Ooh, baby, goin' down that road tonight  
It's gettin' too crazy, I need to hold you tight  
Thinkin', ooh, maybe the moon stills shines as bright  
Yes, it did back then, we'll make it shine again  
Down that road tonight

Ooh, baby, goin' down that road tonight  
It's gettin' too crazy, I need to hold you tight  
Thinkin', ooh, maybe the moon stills shines as bright  
Yes, it did back then
