

Forever Don't Last

The Nitty Gritty Dirt Band

Here we go

Same these days, I think about her
Dream up ways to live with out her
We made vows that I can not excuse
Yes, forever don't last the way it used too

We filled the church and hired a preacher
I raised her veil to reach her
Lives on the promise of her youth
But forever don't last the way it used too

Eternity can not be messed with the law says
You might confess to enough coals, hotter hell you fool
Then you swear an oath and then take it back, anytime you choose
That forever don't last the way it used too

Hammers, razors fill the trash
You throw 'em out when you use the last
Get a new form son, don't become Confused
If forever don't last the way it used to

Forever don't last, forever don't last
Forever don't last, forever don't last the way it used too
Forever don't last, forever don't last
Forever don't last, forever don't last

Take a break
